

POE POWER SUPPLY UNIT FOR VIP SYSTEM MONITOR

The power supply unit allows for an ETHERNET connection to be converted into a POE type connection for supplying the internal unit. The power supply unit is required when installing VIP devices, such as: video intercoms/intercoms on reexisting ETHERNET networks with non-POE (Power Over Ethernet) connections.

**General info**

Product height (mm):	33
Product width (mm):	45
Product depth (mm):	86
Product weight:	95 g
Operating temperature (°C):	0-40

**Compatibility**

Vip system:	Yes
-------------	-----

**Mounting/Installation**

Wall-mounted:	Yes
---------------	-----

**Electrical specifications**

:	100-260Vac
:	280mA
Direct voltage output A (V):	56
Maximum power delivered:	16W
